

The Choices We Make MATTER

September 22 - 23rd, 2018
Ashland, Oregon

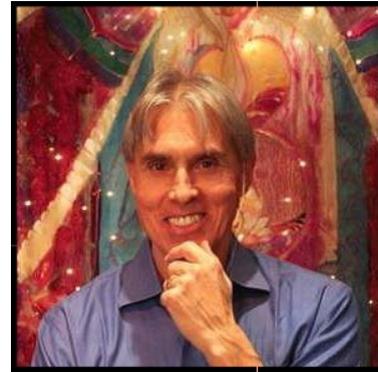

"There are some kisses we want." - Rumi

The consequences of governmental madness repeatedly reaches new zeniths.

The time has come to:

- Stop *unwittingly choosing* what you do not want
- *Unchoose*
- *Unselfishly choose again and again* what you want and need.

Do you know?

That you unwittingly choose higher degrees of difficulty than necessary?
Our choice processes are utterly important – now – more than ever
It is becoming clearer that the dominant culture is no longer in relationship with us.

Our mandate is clear:

We need to know:

- How to consciously place our Attention
- To consistently – with Awareness-- direct our Attention
- To be centered and grounded in our body – here now
- To think and act with Compassionate-Intelligent-Awareness graciously
- To lead and manage our lives skillfully with heart, Grace and Wisdom
- To chose wisely
